

6th International Conference on Pediatrics and Neonatology

Theme: Evolving therapeutics in Pediatrics and Neonatology – Heal a child, change the world

Date

November 13, 2026

Venue

Bangkok, Thailand

SCAN ME

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives. Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges. Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide. We bring in eminent speakers with world-class expertise from various countries to enlighten our researchers and spark enthusiasm for research through our best conferences. These events provide a platform for effective collaborations on the latest research for the worldwide community. Our conferences include exceptional keynote speeches, interactive sessions, and lively debates on research and development in Medicine, Engineering, and Technology. ([click here for more](#))

About Conference

Scientex Conferences feels auspicious to invite all the eminent professionals in the field of Pediatrics and Neonatology to the **6th International Conference on Pediatrics and Neonatology**, to be host on **November 13, 2026**, in the futuristic city of **Bangkok, Thailand**. This premier event is a significant gathering for experts, researchers, and professionals in the field of Pediatrics and Neonatology, providing a platform to share groundbreaking research, innovative practices, and the latest advancements in the domain.

For professionals in the fields of medicine, industry, pharmacology, surgery, teaching, and learning practices, Pediatrics 2026 offers a great opportunity. The goal of Pediatrics 2026 is not only to discuss the main theme of the conference, but also to connect the people in the same field across the globe which may pave the way for building a better community for brighter future in the field of pediatrics. 6th International Conference on Pediatrics and Neonatology

November 13, 2026 | Bangkok , Thailand

SPEAKER PRESENTATIONS

Title: When autism is not autism: Recognising mucopolysaccharidosis type IIIA in a child with regressive neurodevelopment

Muhammad Rizwan, Cork University Hospital, UK

Title:A case of severe pediatric diphtheria complicated by acute kidney injury requiring hemodialysis and bilateral diaphragm paresis leading to prolonged ventilatory dependence

Frederick Michael Evidor, Philippine Children's Medical Center, Philippines

Title:Assessment of the complicated appendicitis in children by using Paediatric Appendicitis Score and Neutrophil to Lymphocyte ratio

Farzana Ali, Dhaka Medical College Hospital, Bangladesh

Title:Photodynamic therapy versus conventional root canal treatment in necrotic primary molars: A15-month randomized clinical trial.

Mohamed Farrag, Lecturer of Pediatric Dentistry at Mansoura University, Egypt

Title:Prevalence, associated factors, and antibiogram of Streptococcal upper respiratory tract infections in children Under 5 years at holy innocents children's hospital, Mbarara City.

Ebenezer Sikon, Mbarara diagnostic laboratory center, Tanzania

Title:The accuracy of ultrasound to predict endotracheal tube size in the pediatric population undergoing general anesthesia compared with age-based formulae: A randomized comparative study

Anish Waghray, Amista hospital, India

Title:Pain assessment in non-verbal children with neurocognitive impairment: A review on current tools, challenges, and clinical perspectives

Roaa Shaban, King Abdulaziz University, Saudi Arabia

Title:Case report: Adenosine kinase deficiency symptoms, effects and outcome in a 9-year-old girl

Noorulain Ali, Fatima Jinnah Medical University, Pakistan

Title:Neuroprotective impact of kangaroo mother care on cerebral hemodynamics in preterm neonates: A doppler-based study

Charan Ramakuja, NeonatologyFellow at manipal hospitals, India

Title:Colostrum avoidance practices among mothers of infants under six months in chiro district, oromia region, eastern Ethiopia

Lemesa Abdisa, Senior Lecturer at Haramaya University, Ethiopia

Title:Prevalence, cause, and outcomes of pediatric acute respiratory distress syndrome among patients admitted to saint Paul hospital pediatric intensive care unit, a prospective study

Ayanaw Tamene, Bahir Dar University, Ethiopia

Title:Effect of simulation-based Neonatal resuscitation training using an integrated device on neonatal clinical outcomes in Ethiopia: quasi-experimental

Tebabere Moltot, Debre Berhan University, Ethiopia

Title:The role of pediatric nurse in family self-management in management chronic childhood illness: Mixed method study

Adraa Hussein Shawq, University of Baghdad, Iraq

Title: From resistance to readiness: Using stages of change to support behaviour change in childhood obesity

Muhammad Zaki Norhisham, Hospital Tanah Merah, Malaysia

Title: Intensive care strategies for acute heart failure in peripartum cardiomyopathy: A multimodal approach

S.Sh. Joniev, Samarkand State Medical University, Uzbekistan

Title: Diagnostic stewardship and reasoning for the management of neonatal sepsis.

Daniel Geleta, Jimma University, Ethiopia

Title: Diagnostic and prognostic values of eosinopenia, neutrophil to lymphocyte ratio, lactate and lactate clearance in neonatal sepsis. A prospective-cohort study

Hend Essam Mostafa, Minia university, Egypt

Title: Diagnostic reference levels, patient and environmental protection from the harmful effects of x-rays: Pediatric radiology practice in six general referral hospitals in Kongo central province, democratic Republic of Congo

Barthélémy Bope Kwete Minga, Higher Institute of Medical Technology, Congo

Title: Comparative efficacy of nebulized magnesium sulphate plus salbutamol versus nebulized salbutamol plus 0.9% NaCl in acute exacerbation of asthmatic in children

Samina Batool, Khawaja Muhammad Safdar Medical College, Pakistan

Title: Molybdenum cofactor deficiency with a novel pathogenic variant in the molybdenum cofactor synthesis 1 (mocs1): A case report

M.G.T.W. Premadasa, National Hospital Kandy, Sri Lanka

Title: Clinical and genetic spectrum of childhood onset epilepsy in a resource poor country: A Hospital based single center study

Naznin Akter, Dhaka Medical College, Bangladesh

Title: Ayurvedic dietary practices for pediatric oral health: An evidence-based review

Kalpna Chaudhry, Seema Dental College and Hospital, India

Title: Detecting alkaptonuria early: A one-year-old child identified through biochemical investigations

Dilanthi Hewa Warawitage, University of Colombo, Sri Lanka

Title: Understanding perceived parental rejection in borderline personality disorder: A qualitative study

Chau Duc Nguyen-Huu, Hue University of Medicine and Pharmacy, Vietnam

Title: A case of asymptomatic lead poisoning in a two-year-old with a background of pica and iron deficiency anaemia

Rafia Ayub, Manchester University NHS Foundation Trust, UK

Title: Determinants of low head circumference at birth of new born in dessie comprehensive specialized hospital, Northeast Ethiopia: A case-control study

Yonas Fissha Adem, Dessie College of Health Sciences, Ethiopia

Title: Application of expiratory flow increased technique in the respiratory therapy of premature neonates: A systematic review

Anna Kosiorowska, Medical University of Warsaw, Poland

Title: Purpura fulminans in a 22-month-old child: Early recognition and favorable outcome without limb loss

Sana Wasim, Al Qassimi Women and Children Hospital, UAE

Title: Health-related quality of life in russian children with inflammatory bowel disease: Comparison across disease types and treatment modalities

Lim Yuen Kai, Sechenov First Moscow State Medical University (Sechenov University), Russian Federation

Title: Effects of warm hand intervention on calming in preterm infants with respiratory distress

Khataliya Inthayote, Registernurse at Lampang Hospital, Thailand
